

Happy New Year!

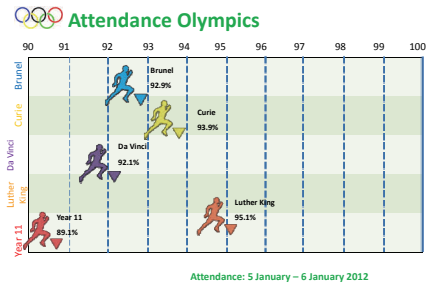

Welcome to the Spring Term. External landscaping and building works have continued over the Christmas holidays and students can now enter the Academy through the designated Student Entrances. They also have access to much more outdoor space at break and lunchtime for ball games, etc. We hope the mild winter continues but should the weather change for the worse the Academy liaises closely with London Transport and we publish updates on our website and also send emails and text messages via our 'Call Parents' system.

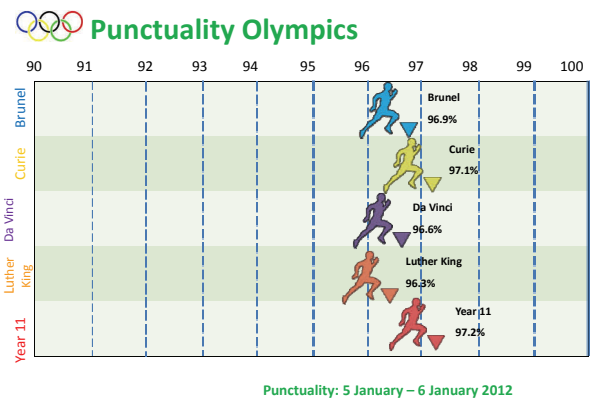

We are committed to looking after the environment. We have started packaging and paper recycling and are now beginning to recycle ink cartridges and mobile phones and we can really gain from your support. We are working alongside a company called 'Support our School' on this project. This scheme will help us raise money as we will receive £1 for every ink cartridge and up to £130 for each mobile phone. Not only will this contribute to the cost of much needed school equipment, it will also help our staff, pupils and the Academy's wider community achieve a more sustainable approach to the use of cartridges and mobiles.
